

VAR Engineering

Results from recycling

VAR Engineering is part of VAR, a recycling company in the Netherlands. VAR has 25 years of experience in processing, with a special focus on the recycling of waste. The company's intake of waste exceeds 1,000,000 tonnes per year. More than 80% of this waste is made suitable for reuse.

VAR Engineering is responsible for the design and realisation of the techniques and machinery applied by VAR. VAR's extensive knowledge and experience in the field of waste processing and recycling is made available to third parties by VAR Engineering.
